

## CONGRESS + EXPO NUREMBERG, 24-25.10.2017

Industrial | Commercial | Residential  
Heating & Cooling | Components & Equipment

### PRESS RELEASE

July 2017

### High-calibre congress programme now online

For the fifth time, international heat pump experts will be gathering at Exhibition Centre Nuremberg for the European Heat Pump Summit on 24 and 25 October 2017. Speakers at the summit will explore all aspects of industrial and commercial heat pump applications in a wide range of presentations and will also look at application scenarios for heat pumps in housing construction, hybrid systems, and the development of components and integration of heat pumps into smart grids. Simultaneous interpretation (German / English) will be provided for all presentations at the European Heat Pump Summit. In addition, the Foyer-Expo will give delegates the opportunity to find out about the latest products and innovations from exhibiting companies.

"Delegates at the European Heat Pump Summit 2017 can once again look forward to a first-class congress programme, which this year puts the spotlight on markets, development and applications for heat pumps. We are delighted to have already received numerous confirmations for the accompanying Foyer-Expo from renowned industry players attending the standout event for the heat pump community in the autumn. Their participation underscores the importance of this high-calibre event," says Daniela Heinkel, Senior Manager Exhibitions, NürnbergMesse.

#### R&D results

This year the presentations will focus on the successful use of heat pumps in both commercial and industrial applications, including detailed descriptions of the associated applications. The latest R&D results relating to the tapping of renewable energies when using heat pumps in nZEBs, hybrid combinations and smart grids will also be presented. The summit will also explore new developments in components and innovative systems for the future.

**Veranstalter  
Organizer**  
NürnbergMesse GmbH  
Messezentrum  
90471 Nürnberg  
Germany  
T +49 9 11 86 06-0

**Vorsitzender des Aufsichtsrates  
Chairman of the Supervisory Board**  
Dr. Ulrich Maly  
Oberbürgermeister der  
Stadt Nürnberg  
Lord Mayor of the  
City of Nuremberg

**Geschäftsführer  
CEOs**  
Dr. Roland Fleck, Peter Ottmann

**Registergericht  
Registration Number**  
HRB 761 Nürnberg

Featuring a large number of presentations, the symposium offers a comprehensive two-day programme which can now be viewed online. More than 30 prominent German and international speakers will be available to answer questions about the status quo and future of the heat pump.

This year's thematic areas include:

- Market developments
- R&D  
hybrid systems – hot water heat pumps – nZEB – smart grids – apartment blocks – innovations – photovoltaics + heat pumps
- Development of components and products  
refrigerants – compressors – heat exchangers – fans – pumps – controls
- Applications for heat pumps  
industrial – commercial – residential

A highlight of this year's European Heat Pump Summit will once again be the inclusion of a segment on the heat pump initiative of the International Energy Agency (IEA-HPT), designated IEA HPT Annex in the summit programme. For further details of all lectures and speakers please go to: [www.hp-summit.de/symposium](http://www.hp-summit.de/symposium)

**All presentations at the European Heat Pump Summit will be interpreted simultaneously (German / English).**

### **Foyer-Expo**

The lectures are complemented by the accompanying Foyer-Expo with product presentations by renowned companies and associations from the international heat pump sector. To learn more about the exhibiting manufacturers of components and heat pumps please go to:

[www.hp-summit.de/foyer-expo](http://www.hp-summit.de/foyer-expo)

### **Ticket prices for the European Heat Pump Summit 2017**

The early bird discount ends on 15 September 2017, so act quickly to benefit from a reduced ticket price of EUR 460 compared with the standard ticket price of EUR 510. The price includes participation in the summit, congress catering including lunch, the get-together at the end of the first day of the event and access to the Foyer-Expo.

## **Heat pump expertise with strong partners**

NürnbergMesse organises the European Heat Pump Summit in close collaboration with its partners and sponsors from the industry and the research community including AREA (European Association of Refrigeration, Air Conditioning and Heat Pump Contractors), DKV (German Refrigeration and Air Conditioning Association), ehpa (European Heat Pump Association), EPEE (European Partnership for Energy and the Environment), IEA Heat Pump Centre, IZW (Information Centre Heat Pumps and Refrigeration), VDKF (Association of German Refrigeration and Air Conditioning Companies) and ZVKKW (Association for Refrigeration, Air Conditioning and Heat Pumps).
