

ATMOsphere Europe Summit to Address EU's Phase Down of Super-Polluting Refrigerants

Replacement of hydrofluorocarbons (HFCs) with natural refrigerants is among the topics at the online event in September.

Brussels, Belgium (August 18, 2021) –The 11th edition of the ATMOsphere Europe Summit, taking place online on September 28-29, will feature a discussion of the European Union (EU)'s F-Gas Regulation, which manages the phase down of powerful greenhouse gases known as hydrofluorocarbons (HFCs).

ATMOsphere Europe is organised by shecco, a Brussels, Belgium-based accelerator of natural refrigerant and clean cooling technologies.

At the conference, key representatives will discuss the latest developments in the F-Gas Regulation review, as well as standards impacting natural refrigerant adoption in Europe.

ATMOsphere Europe will also address the impact of hydrofluoroolefins (HFOs) – the latest generation of fluorinated refrigerants – on health, safety and the environment, and the need to use natural refrigerants instead, among other topics.

The online summit is expected to attract attendees from all over Europe, including end users, policy makers, manufacturers, researchers, academia, NGOs, quote associations, media and consultants.

Registration is open [here](#).

Other topics in the conference programme include:

- Keynote presentation
- Market mega trends
- Natural refrigerant technology trends
- Commercial and Industrial Refrigeration case study sessions
- End user best practices
- Training
- HVAC and heat pumps
- Transport and motor vehicle AC
- CEO interview with Teko.

The first speakers have already been announced, and more are added every week. The complete programme can be found [here](#).

PRESS RELEASE

Teko is the platinum sponsor of the event. Gold sponsors include Castel, Arneg, Epta and Emerson. A complete list of sponsors can be found [here](#).

You can sign up for the event newsletter [here](#).

To access all the latest news about ATMOsphere Europe Summit, and network with attendees before, during and after the event, join the free ATMOsphere global network [here](#). The network includes the #atmo_europe_summit channel, reserved exclusively for the attendees of the ATMOsphere Europe Summit.

About shecco

For the last 18 years, market accelerator shecco has been active in helping bring climate-friendly technologies faster to market. shecco supports over 100 partners worldwide in the HVAC&R sector, where the focus is on sustainable refrigeration, heating and cooling technologies using natural refrigerants. shecco offers a variety of services in three areas: 1) media, including online industry platforms, magazines and a catalog of dedicated research reports; 2) market development, including market research, consultancy and public affairs services, as well as special international projects; and 3) events, including international conferences, virtual trade shows and national workshops.
