

World Refrigeration Day 2024 - SOSIAD

Association of Refrigeration Industry Businesspeople (SOSIAD) organized an event within the scope of World Refrigeration Day at CVK Park Bosphorus Hotel, Istanbul. SOSIAD met with industry professionals, academicians and press members.

At the event moderated by Kadir Isa, notable information was shared on the European Green Deal, sustainable cooling technologies, Paris Agreement and climate justice, studies on the management of fluorinated greenhouse gases, testing/validating in air conditioning and refrigeration, circular economy in industrial cooling, recovery of waste heat and financing of green transformation in the cooling industry.

At the cocktail held after the event, the participants continued their conversations in a friendly atmosphere.

In memory of this special day, you can access the music prepared by Kadir Isa, SOSIAD delegate to AREA, with the help of artificial intelligence.
